

The following is another of many topical studies and Biblical Chain References written by Dr. Kent A. Field starting in 1976 to the present day. Do you question the validity of topical studies? Think again! Consider the very purpose of the New Testament Letters. The Book of 1John was a topical study combating Gnosticism; Galatians combats the binding of circumcision; and so on...

Being Fat & Over-eating

By Dr. Kent A. Field, ©1982

As Christians we are taught pretty early that we must not get drunk, must not steal, must not lie, must not be violent, must not have extramarital sex, and many more things to avoid. Many have gone so far as to add to the plainly stated Biblical list with additional "MUST NOT'S" that they believe further express God's desire for us in living more righteously in God's sight. They've added that we must not smoke, must not drink, must not dance, must not watch television, and must not wear certain clothes. But have you ever noticed just how over-weight some of those same people are?! It is NOT our interest, for the purpose of this study to debate the validity of these points, but rather, to raise the Bible points to a seldom discussed issue of sin in the church, "Being Fat & Overeating". Why do we avoid this subject and stuff ourselves at church fellowships and think that's O.K. with God? Could this be the result of yet another sin? Hypocrisy!? Please carefully read the passages offered and see if you are able to agree with most of the summaries offered....
